

Air1 serves me by offering me an alternative to all the secular stations. Why listen to all that trash when I can listen to something that lifts up God. The community would be hugely affected if Air1 were displaced by an LPFM broadcaster airing other programming. Youth Christians wouldn't have a radio station to listen to for one. Air1 is more than just a radio station, they help the community by offering prayer and counsel with their pastors on staff. They offer a clean station for parents to let their kids listen to. It would be a big mistake to displace Air1 with a LPFM broadcaster.
